SUMMARY OF THE REASONS FOR DECISION:

The magazine *Playboy September 2003* is classified as:
Objectionable except if the availability of the publication is restricted to persons who have attained the age of 16 years.

The publication is a glossy, colour magazine with a broad range of written and pictorial content, likely to appeal predominantly to an adult male readership. The magazine contains sexualised nudity and sexual references that have the combined effect of objectifying women generally.

A restriction on the availability of the publication to people 16 years and over is considered sufficient to prevent injury to the public good resulting from the publication's sexual content.
